

Course contents:

Natural Building Methods

1. Natural building methods
2. Wood constructions
 - 2.1 Lumber requirements
 - 2.2 Solid wood products
 - 2.3 Design principles
 - 2.4 External wall assemblies made from wood
 - 2.5 Innovative building design with wood
3. Masonry and earth construction
 - 3.1 Brick wall / brick ceiling
 - 3.2 Additional masonry units
 - 3.3 Earth construction
4. External thermal insulation composite system (ETICS)
5. Concrete and reinforced concrete construction
6. Straw bale construction
7. Wood wall or masonry wall?
8. Which building method is the right one?
