

Course contents:

Electrical Wiring

1. Power supply system
 - 1.1 Current and voltage of the power supply system
 - 1.2 Decentralized power supply

2. Power from renewable energies
 - 2.1 Introduction
 - 2.2 Photovoltaic systems
 - 2.3 Wind power
 - 2.4 Hydropower
 - 2.5 Biomass (including biofuels)
 - 2.6 Combined heat and power (CHP)

3. Home electrical wiring
 - 3.1 Introduction
 - 3.2 Building biology wiring system
 - 3.3 Grounding of shielded installations
 - 3.4 Building systems
 - 3.5 Design and installation of electrical wiring
